STATISTICAL RETURNS.

I. STATISTICS OF PHYSICAL, POLITICAL AND FISCAL GEOGRAPHY.

I. A. PHYSICAL GEOGRAPHY.

1. Area cultivated and uncultivated.

Superseded by Table A of Agricultural Statistics, *vide* III. E.

2. Character of the Surface

Nature of different tracts.	Name, Area, and Physical description of each tract	Where situated, in British or Native Territory	Prevailing Soils, Minerals and Products
Mountains and elevated tracts.	The Mysore country above the ghats is often called the "Table Land," a denomination very little descriptive of its appearance, as it is by no means plain or flat, but in some parts mountainous, and everywhere undulating. The Eastern Ghats form the frontier by which it is separated from the Carnatic. They constitute the exterior of the east ranges of hills, which run along the whole length of the Peninsula from Cape Comorin, stretching up to the Continent of Asia. In many parts the ascent over them into Mysore is very high and difficult, while in others it is more sloping and protracted. The country rises gradually from these ghats towards Bangalore, which is situated in the most elevated portion of the Mysore plateau, and is 3,031 feet above the sea level.		The soils, in the order of their prevailing kinds, are as follow :— 1. Red soil mixed with loam and vegetable mould. 2. Inferior red sandy soil. 3. Black cotton, free from stones. 4. Stony and gravelly soil. 5. Rich garden soil. 6. White stiff loam. 7. Black cotton, but light and stony. 8. Soil impregnated with salt. The great rock which may be said to constitute the basis of the whole country, is a kind of sienite composed for the most part of four different ingredients, viz. quartz, felspar, hornblende and mica. The quartz has usually a dull greyish white color, and veins of it from 4 to 16 inches thick, often traverse the rock in different directions. The felspar varies in color from a silver white to a deep brick-red, and is the most copious constituent of the rock. The hornblende is black, very abundant, and very much given to decomposition. The mica is easily distinguished from the hornblende, even when the stone is nearly in a state of disintegration. The hornblende in that state has assumed a brown-ochre color, and has lost all lustre and cohesion, while the mica retains its color, lustre and cohesion to the last, and becomes only more apparent by the progress of disintegration. This is particularly exemplified in the Mysore country, where the undulating high ground consists of sienite, decomposed into pipe clay, intermixed with micaceous shining particles and grains of quartz. From the structure of the country which is entirely primitive, no coals could be expected.
Plains	The descent from Bangalore on all sides is perceptible though not rapid. On the north-west, after passing the Chitaldrug range of hills, there is a gradual fall through the broad valley which leads to the River Tungabhadra, near which is the station of Harihar, probably the lowest point in Mysore, its altitude above the sea being only 1,800 feet. To the south-west and west by Seringapatam and Hassan, there is perhaps a more marked descent until it is abruptly terminated by the western range of ghats comprising in this direction the Nilgiri and Coorg hills, and further north, the Manjarabad and Nagar ranges. A marked feature of the country is the number of isolated hills called Droogs, on the most inaccessible of which the former Pallegars or petty chiefs built forts, afterwards in many instances strengthened and improved by Hyder and Tippu and still in good preservation, but now without guns.		Chlorite slate is found near Sira, and drawing slate in the neighbourhood of Chitaldrug. Other minerals are the following :— Clay Ironstone. Schist in quartz. Mica slate. Magnetic Ironstone. Pot stone. Actinolite. Ligniform asbestos. Brown spar. Common salt. Carbonate of soda. Gold.
Forests	The principal forests are found clothing the sides of the western mountains. They abound in teak, blackwood and other valuable kinds of timber. There are no forests in the Eastern Ghats. Sandalwood grows in the country bordering the hills.		
Rivers	The Tungabhadra rise in the north-west of Mysore and uniting form the Tungabhadra, which flows northwards and eastwards till it joins the Krishna below Kurnool. The banks of Tungabhadra are too high for irrigation purposes. The Cauvery rises in Coorg and passes through and out of Mysore in a south-easterly direction, after receiving the Hemavati, the Lokapavani, the Samsha and the Arkavati from the north, and the Lakshmantirtha and the Kapani from the south. The Cauvery and its tributaries supply numerous irrigation channels and tanks. The Northern Pennar, the Palar and the Southern Pennar rise in the eastern part of Mysore, in their short course through which their waters are detained and converted into chains of tanks. They become large rivers before they reach the sea. None of these rivers are suitable for navigation.		The chief products are :— Paddy. Ragi—the principal food of the people. Bellar—a kind of small bean. Gram. Wheat. Millet. Oil-seeds. Sugar-cane. Cotton. Hemp. Tobacco. Mulberry. Coffee. Coccanuts. Betel-nuts. Potatoes.
Lakes	There are no natural lakes in Mysore; but there are nearly 20,000 artificial reservoirs, some of which are of considerable magnitude.		
Marshes	None of any consequence.

REPORT ON THE ADMINISTRATION OF MYSORE.

FOR THE YEAR 1900-1901.

PART I. GENERAL SUMMARY.

The most important event of the year was the visit paid to the State by His Excellency Baron Curzon of Kedleston, Viceroy and Governor-General of India. His Excellency arrived at Mysore on the 30th November 1900, and after making a stay of 10 days in the State during which Seringapatam, Kakankote, Bangalore and the Kolar Gold Fields were visited, left for Madras on the 10th December. **Viceregal visit.**

His Highness the Maharaja accompanied by the Yuva Raja and the Tutor and Governor, Mr. S. M. Fraser, sailed on the 3rd January 1901 from Madras and reached Rangoon on the morning of January 7th, where the leading Hindu, Mahomedan, Chinese and Burmese merchants presented an address of welcome to His Highness. His Highness exchanged calls with His Honor Sir Frederick Fryer, K.C.S.I., the Lieutenant-Governor. After visiting Pegu, Mandalay, the new hill station of Maymyo, the famous bridge over the Gohteik Gorge, Prome, Bhamo, Pagan, the oil wells of the Burma oil Company & Thayatmyo, the party returned to Rangoon and sailed again for Madras on the 2nd February 1901. This is the last tour in British India which the Maharaja will make before his installation, but his travels across the sea in Burma added to the seven weeks spent during 1899-1900 in Upper India will have given His Highness no little experience, for his age, of what the Indian Empire means. **His Highness the Maharaja's tour in Burma.**

Sir K. Sheshadri Iyer, having resigned the office of Dewan and President of the State Council owing to ill health, Her Highness the Maharani-Regent, C.I., appointed on the 18th March 1901, with the approval of the Government of India, Mr. P. N. Krishnamurti, C.I.E., as his successor. **Administrative changes.**

Mr. Thumbu Chetty, C.I.E., who had officiated as Dewan from 11th August 1900 to 18th March 1901 during the absence of Sir K. Sheshadri Iyer on leave, was granted privilege leave for two months and furlough for one year in continuation thereof preparatory to retirement.

Mr. V. P. Madhava Rao, C.I.E., continued as first Member of Council and Messrs. C. Sreenivasiengar and C. Madiah, Rao Bahadur, were appointed respectively as the second and the third Members of Council.

The annual meeting of the Assembly of Representative raiyats and merchants had for the second time to be suspended owing to the prevalence of plague in the Mysore City. An account of the Administration of the State during the year was communicated to the Members of the Representative Assembly and published in the *Mysore Gazette* for general information. **Dasara Representative Assembly.**

The leading feature of the year's operations was the completion of the revision of the water classification of the rice and garden lands of the whole of the Huliya Sub-taluk and portions of the Chiknayakanhalli and Challakere Taluks. The settlement of 131 inam villages was carried out, 264 final quit-rent registers of whole inam villages were revised on the survey valuation and 1,735 final title-deeds were issued. **Survey and Inam settlements.**

Nine regulations were passed during the year.

Legislation.

A new Superintendent was appointed to be specially in charge of the Kolar Gold Fields and the adjacent tracts, some additions were made to the existing force there and better arms were supplied. The system of watch at *ukkadas* chiefly by **Police.**

ties & salaries was made permanent. The actual strength of the Regular Police Force during the year was 5,374 officers and men as against 5,399 at the end of the preceding year. The total expenditure amounted to Rs. 9,65,990-2-5 including the share of "Land Revenue Charges" debitable to the Police Budget. The number of crimes reported during the year under report was the largest, the increase being about 17·6 per cent over the average number for the past 10 years. The total number of cognizable cases reported to the Police including those pending from the previous year was 7,757 of which 2,831 ended in conviction. The number of persons arrested in connection with these cases was 6,658 and of these 4,254 were convicted. The total value of property lost as well as of that recovered was Rs. 2,01,521 and Rs. 83,635 respectively. 27 persons in all were bound over for good behaviour and 25 persons were sentenced to various terms of imprisonment for failing to furnish the required security. Only one case under the Infant Marriage Act was prosecuted during the year as against five in the previous year and all the persons involved in that case were acquitted. Four cases were pending trial at the end of the year.

Criminal Justice.

There were 154 courts exercising original criminal jurisdiction and 20 exercising criminal appellate powers. At Hassan a Sessions Court was newly established on the 1st November 1900 with jurisdiction over the Revenue districts of Hassan and Kadur. The total number of original cases brought to trial was 14,173, involving 28,734 persons, of whom 9,234 were convicted. The total number of appeals was 1,092, involving 1,760 persons. The total receipts and charges of all the criminal courts in the State during the year were Rs. 84,946-12-5 and Rs. 3,99,003-11-8, respectively.

Prisons.

The number of prisoners of all classes (convicts, under-trial and civil) at the beginning of the year was 1,075 and the number admitted during the year was 10,038. Of these 9,935 were discharged, the number of prisoners at the end of the year being 1,178. On the whole the jail population was slightly in excess of that of the last year. There were 10 escapes among convicts during the year as against 12 in the previous year. Of these 4 were re-captured. 23 juvenile offenders were admitted during the year. Of these 2 had been previously convicted. The health of the prisoners was generally good, the daily average sick being 18·19 out of a daily average number of 1,110·37 prisoners. The total expenditure for guarding and maintaining the prisoners in all the jails and lock-ups was Rs. 1,11,184-15-10 or Rs. 100-2-1 per head of the average strength, against Rs. 1,00,116-13-0 or Rs. 99 per head of the average strength during the previous year. The total earnings by the convicts during the year was Rs. 17,145-7-9 or Rs. 20-2-1 per head of the average number sentenced to labour.

Civil Justice.

A new District & Sessions Court, with Head-quarters at Hassan and having jurisdiction over the districts of Kadur and Hassan, was formed and the Sub-Judge's Court at Shimoga was abolished. The total number of suits instituted during the year was 23,029, of which the number of Small Cause Suits was 9,724. The number of suits for disposal, inclusive of suits pending from the previous year, was 29,012. Of these 21,816 were disposed of, leaving 7,196 pending at the close of the year. There were 1,963 first appeals for disposal during the year, 742 of which were disposed of, leaving 1,221 pending at the close of the year. The number of second appeals for disposal during the year was 389 of which 110 were disposed of, leaving 279 pending at the close of the year. The number of processes issued and the amount of fees realized were Rs. 1,86,360 and Rs. 87,843-10-0, respectively.

Registration.

The total number of Sub-Registry offices in the State was 81 as in the previous year, of which 57 were special, the remaining 24 being in charge of the Taluk Revenue Officers. The number of documents registered during the year was 64,681, showing an increase of 26·9 per cent over that of the preceding year. The registration of documents optionally registrable increased from 19,869 in the previous year to 25,683 in the year under report. The number of wills and authorities to adopt registered during the year was 372 and 4 respectively as against 373 and 1 during the previous year. The aggregate value of documents registered amounted to Rs. 1,39,00,724. The gross receipts of the department were Rs. 1,25,146-0-5 showing an increase of Rs. 13,812-14-0 over those of the previous year, and the total expenditure was Rs. 74,334-3-9 showing an increase of Rs. 3,442-11-1.

Registration of Companies.

There were at the beginning of the year 137 companies at work. One company was newly registered during the year. Thus the total number of companies for the year was 138. Three Banking and Loan companies were voluntarily wound up, and 2 companies of the same description and 1 Agricultural Bank ceased to work, leaving 132 companies at work at the end of the year. Of these, 63 were companies limited by guarantee possessing no paid up capital. There was a de-

ans.

Loans to the extent of Rs. 19,918 for sinking irrigation wells, of Rs. 11,150 for other improvements to land, and of Rs. 675 for the construction of embankments known as Saguvali kattes, were granted. For the relief of encumbered Inamdars no new loans were sanctioned during the year.

Agricultural
Banks.

The total number of Banks working during the year was 61 as in the year previous. The banks granted loans to the extent of Rs. 1,16,464 and Rs. 1,40,198 were repaid during the year. The receipts from these transactions and other items amounted to Rs. 63,853, while the expenditure amounted to Rs. 59,542. There was thus a net profit of Rs. 4,311.

Ortiiculture and
Public Gardens.

The attendance of visitors to the Lal-bagh at Bangalore was greater than in the previous year. Several additions were made to the Menagerie and the Aviary, besides many improvements to the gardens. A rose pest forwarded to the Indian Museum at Calcutta for identification proved new to science and was named *Adoratus Bangalorensis*. The other gardens and parks under the Superintendent were maintained in good condition. The receipts of the various gardens and parks amounted to Rs. 3,808 and the expenditure to Rs. 34,401.

Forests and
Kheddas.

The Conservator of Forests was appointed ex-officio Secretary to Government in the Forest Department with effect from the 1st November 1900. A regulation (No. XI of 1900) to amend the law relating to Forests and forest produce in Mysore was passed on the 16th November 1900 and came into force on the 1st January 1901. Rules under certain sections of this Regulation were passed during the year. An Assistant Conservator of the State was deputed to co-operate with the Madras Forest Settlement Officer in tracing the boundary between Mysore and the South Canara District. The total area of State Forests, which amounted to 1,757 square miles at the beginning of the year, was increased to 1,948 square miles at the close of the year. The total area of reserved lands at the beginning of the year was 308 square miles. The area excluded amounted approximately to 131 square miles and the total addition to the area of reserved lands during the year was 118 square miles, so that on the whole the area of reserved lands was, during the year, reduced by about 13 square miles. The old rules regulating Forest Settlement were changed, during the year, by the introduction, with effect from the 1st January 1901, of the Mysore Forest Regulation, and since the close of the year, the provisions of the regulation were supplemented by the issue of rules for the guidance of Forest Settlement Officers, based on the procedure adopted in Madras. There was a fall of 5·8 per cent in the number of breaches of Forest Rules reported during the year. There was a slight increase in the number of cases of injury to sandal trees reported to the Revenue Department. Although the quantity of Sandalwood sold and the amount realized by the sale were considerably less than those of the previous year, still the average price per ton of sandalwood sold was Rs. 29 more than in the previous year. The East India Association, Limited, having failed to abide by the terms of the agreement, the concession granted to it for distilling sandal-oil in Mysore was withdrawn. Experiments made during the previous year in floating timber down rivers and channels were continued during the year and 9,145 cubic feet of timber were transported by water against 7,986 cubic feet in the previous year. Floating operations being a new departure in the State, the cost of transport by water decreased but slightly. The year's transactions aggregated Rs. 12,37,731 under Forests and the total revenue recoverable inclusive of arrears was Rs. 12,90,727. Of this Rs. 12,48,083 were realized during the year, leaving a balance of Rs. 42,664 outstanding at the close of the year. The Khedda revenue for the year amounted to Rs. 7,164 exclusive of arrears.

Mining and Geo-
logical Survey.

The Mining Industry in Mysore continued to prosper during the year and the Kolar Gold Fields still continued to be the producing centre. But active operations were carried on in the Kadur District; while in the Mysore District, work commenced in the early part of the year and was proceeding briskly on the South Amble Block in the Nanjangud Taluk. The number of mines at work during the year was 14, the same as last year. Of these 5 paid dividends to shareholders as against 4 in the year previous. Besides gold, the only other mineral in Mysore attracting much attention was corundum. Revised rules calculated both to encourage the *bona fide* worker and to secure the opening up of important deposits were issued. Pending the revision of the Rules for the issue of mining leases and prospecting licenses no fresh leases or licenses were issued. There was a slight increase in the number of accidents during the year. The total number of prosecutions for breaches of the Mining Regulation and the Rules thereunder was 29 against 6 in the previous year. Considerable progress was made in the Geological Survey of the State, especially in the districts of Kolar, Tumkur and Mysore.

crease during the year of Rs. 1,30,000 and Rs. 1,34,768 respectively in the nominal and paid up capitals of the companies. The number of returns registered during the year was 411 being 29 more than in the previous year and the fees realized amounted to Rs. 391-4-0.

The number of Local Fund Circles remained the same as in the last year, *viz.*, 10. The total income (including the opening balance) and expenditure of the Local Boards were Rs. 8,34,416 and Rs. 5,68,888, respectively. Administrati

The number of Municipalities rose during the year from 121 to 124. The total number of Municipal members was 1,092, of whom 308 were ex-officio, 767 nominated by Government and 17 elected by the Bangalore and Mysore Cities. The receipts under all heads amounted to Rs. 7,25,711, the opening balance at the credit of the Municipalities being Rs. 3,33,919. The total expenditure was Rs. 7,44,397. In addition to the expenditure of Rs. 1,75,957 incurred on the construction and repair of roads, drains, wells, &c., Rs. 15,986 were spent on sanitary works in the Kolar, Nanjangud, Tarikere and Kadur Municipalities. Contributions made from Municipal Funds on account of Medical and other Charitable Institutions amounted to Rs. 44,853 against Rs. 37,696 in the previous year and those made on account of education amounted to Rs. 38,039. The Shimoga and Kadur Districts, which remained free since the appearance of plague in the State, became infected in the early part of September 1900 and in the middle of January 1901 respectively, while the Chitaldrug District alone remained free. There was a marked increase in the number of plague cases from 6,596 in the previous year to 17,959 during the year under review. The Mysore District and the Mysore City suffered most. The total number of deaths from plague in the State was 13,573. Thorough disinfection and prompt evacuation of infected places were found to be the most effective means of arresting the spread of plague and the villagers willingly and readily adopted these measures. The sanitation of the Mysore City was much improved by the formation of 2 extensions on the northern and southern sides of the city and by the opening up of congested parts. The total amount sanctioned for plague preventive measures was Rs. 3,25,000 and the total expenditure amounted only to Rs. 2,95,396-11-6. Plague Adm
tration.

The total strength of the Mysore Force was 2,875, composed of 1,092 cavalry and 1,783 infantry. The cavalry and infantry regiments were regularly drilled by the Commanding Officers assisted by Drill Instructors. One Officer and 2 Non-Commissioned Officers from the Imperial Service Regiment were sent to Sidney in November 1900 to attend the Federal Proclamation. The annual course of musketry commenced during the previous year was completed during the year under report. The volley firing of the Imperial Service Regiment was also finished. Out of 4 sections of the Regiment that competed for the "Lloyd Lindsay" match in the S. I. R. Association, 3 sections came out successful and won prizes. All the non-commissioned officers and men who had been undergoing a course of instruction in the Brigade Signalling School passed in the final examination held in July 1900. With a view to secure the better discipline of the Force, Regulation V of 1900 and Regulation IV of 1901, making certain amendments to the Mysore Military Regulation of 1899, were passed on the 21st June 1900 and 12th May 1901, respectively. Military.

The season during the year was favourable for agricultural operations. In April and May the rains were seasonable and plentiful. The south-west monsoon showed signs of failure in June and gave rise to serious apprehensions of drought, but these were allayed by the fall of copious rains in September. The average rainfall for the State was 39.66 inches, which was 3 inches less than that for the preceding year. There were 193 rain-gauge stations in the State as against 186 in the previous year. Owing to early sowings, the harvests were fair, but there was a general rise in the prices of food grains, especially ragi and jola. The markets were well supplied and there was a sufficient supply of drinking water and fodder for cattle. Season and I
fall.

The extent of Government lands under occupation during the year was 6,564,708 acres, as against 6,503,551 acres in the previous year, and the area under actual cultivation increased from 5,943,917 acres in the previous year to 6,143,431 acres in the year under report. The extent of assessed waste lands at the end of the year was 1,598,910 acres. Agriculture.

Since February 1901 analytical work is being carried on in the Laboratory of the Agricultural Chemist. In order to assist the planters in starting systematic experiments with coffee, 3 tours were made by the Agricultural Chemist to coffee districts; several tours were also made to the sugar-cane growing parts in the interests of the sugar industry. Agricultural
mistry.

The chief articles of manufacture were cotton, woollen and silk fabrics, sugar, jaggery and articles of wood and metal. The number of mills, workshops and factories using machinery and steam power was 7. The chief exports were coffee, cardamom, arecanut, sandalwood, silk, gold and food grains, and the imports consisted chiefly of piece-goods, wheat, iron, cotton, thread and other European goods. There was an increase in the value of exports by Rs. 1,20,15,923 and a fall in the value of imports by Rs. 12,28,678. Manufacture and Trade.

The outlay on Public Works during the year amounted to Rs. 41,32,597 against Rs. 43,52,034 in the previous year. The chief civil buildings in progress during the year were the Mysore Palace, the Victoria Hospital, the Students' Home, Bangalore, and the Agricultural Chemist's Office and Laboratory, the Head Quarter Office for the Mine Inspection Branch of the Geological Department at the Gold Fields, and the construction of a new High School building at Tumkur. The total length of road maintained from the provincial revenues was 1,802½ miles at an average cost of Rs. 199 per mile. Two roads measuring 16½ miles in all and maintained hitherto from District Funds were during the year transferred to the Provincial Funds. The roads maintained from the District Funds measured 3,512 miles. An iron girder bridge was thrown across the Addahalla river on the Manjarabad-Subramanya road, and another across the Bhadra at Tadasa. The chief original works in progress under "Miscellaneous Public Improvements" were the formation of the Basvangudi and Malleswaram extensions, the laying of the sewage and drainage pipes in the Western extension of the Mysore City, and the extension of water-supply and the drainage scheme to the Yedatore town. Besides the above works, the Kaveri Power Transmission scheme and the memorial works of His Highness the late Maharaja made fair progress during the year. The total expenditure on Irrigation works was Rs. 8,31,528. Out of the 201 head of cattle sold, 170 steers were purchased by the Madras Commissariat Department, and 4 bulls by the Government of Port Blair. The total number of sheep in the farm during the year was 2,027 ; of these, 298 died and 35 were sold, leaving a stock of 1,694 at the end the year. The receipts of the Department amounted to Rs. 11,883-11-2, while the cost of the Department aggregated Rs. 33,072-10-0.

The year opened with 9 stallions on the Farm and a thorough-bred stallion was purchased during the year. At the end of the year there were 85 brood-mares, and 159 colts and fillies. The expenditure to Government on account of the Farm was Rs. 46,058. The value of live stock remaining on the Farm at the end of the year was Rs. 1,07,430.

On the retirement of Rai Bahadur Mr. A. Sreenivasacharlu in April 1901, the Deputy Secretary to Government was placed in charge of the Muzrai Secretariat duties, the office of "Muzrai Superintendent" being abolished and the Deputy Commissioners being given wider control over Muzrai institutions than before. The receipts and the expenditure during the year amounted to Rs. 4,89,407-7-0 and Rs. 4,23,661-15-11 respectively, leaving a balance of Rs. 65,745-7-1 at the end of the year. Repairs to 47 institutions at a cost of Rs. 19,009-9-3 were executed during the year. 14 local committees under the designation of Dharmadarsis were newly appointed to supervise the working of certain Muzrai institutions, the total number of such of committees at the close of the year being 162 ; and a careful revision of the establishments of 7 Muzrai institutions was effected.

The several observatories continued to work regularly and the observations were telegraphed daily to the several appointed stations. The printing of the first of a projected series of Mysore Meteorology Memoirs was completed during the year. This Memoir gives the hourly values of the weather elements for the quadrennial period 1895-98.

A general census of the population of Mysore was taken on the 1st March 1901 at the same time as in other parts of India. In order to facilitate the work, a Census Procedure Code on the same lines as that prescribed for British India was passed. The Census Regulation IX of 1900, similar in substance to the India Census Act, was also passed on the 2nd November 1900 with such modifications as local conditions required. The final totals, exclusive of the population of the Civil and Military Station of Bangalore, show a population of 5,449,800, consisting of 2,751,902 males and 2,697,898 females.

CHAPTER III.—PROTECTION.

Legislation.

16. The following Regulations were passed during the year :—

(i) *VII of 1900: The Coinage Regulation, 1900.*—This was passed in order to give effect to Article 13 of the Instrument of Transfer, and provides for the automatic application to Mysore of the British Indian Coinage Acts. Regulations passed.

(ii) *VIII of 1900: A Regulation to further amend the Municipal Regulations of 1871.*—As the Municipal Regulations of 1871 contained no provision authorising Municipal Commissioners to grant exemptions from taxation, this defect was removed by the above Regulation, based on clause (2) of section 46 of the Bangalore (Civil and Military Station) Municipal Law, 1897.

(iii) *IX of 1900: The Mysore Census Regulation, 1900,*—based on the Indian Census Act, 1900.

(iv) *X of 1900: The Indian Evidence Act Amendment Regulation,*—based on section 2 of Act V of 1899, is intended to provide for the admission of expert evidence in connection with the system of identification by means of finger-impressions.

(v) *XI of 1900: The Mysore Forest Regulation, 1900,*—which was prepared on the lines of the enactments passed in various provinces of British India, with such modifications and additions as were required by local circumstances and conditions, was intended to replace the “Rules for the Administration of Forest and Waste Lands,” published on the 8th June 1878, as the latter were found to be defective in many respects.

(vi) *I of 1901: A Regulation to amend the Land Improvement Loans Regulation, 1890.*—This was passed in order to rectify the omission to appoint a date of commencement, as required by clause (3) of section 1 of Regulation IV of 1890, and to prevent consequent doubts as to the validity of acts done under the Regulation.

(vii) *II of 1901: The Mysore Game and Fish Preservation Regulation, 1901.*—This Regulation was passed in response to a widely prevalent desire throughout the State to protect birds and animals against reckless and indiscriminate destruction. The Regulation, while throwing no obstacles in the way of the killing of noxious wild animals, or of the protection of crops by raiyats, or the reasonable enjoyment of sport, aims only at the preservation of game and fish from total extinction by fixing a close time during which the destruction of such game and fish is prohibited.

(viii) *III of 1901: A Regulation to further amend the Mysore Civil Courts Regulation, 1883.*—This provides for investing Subordinate Judges, whenever it is considered necessary, with unlimited pecuniary jurisdiction in original suits and proceedings of a civil nature not otherwise exempted from their cognizance, and with power to entertain appeals direct from the decrees and orders of Munsiffs.

(ix) *IV of 1901: A Regulation to further amend the Mysore Military Regulation, 1899, as amended by Regulation No. V of 1900.*—This confers upon Military officers the power of imposing fines for minor offences by followers.

17. A statement of legislative measures pending during the year, with an explanation of their respective objects and character, is given in the Appendix.

Police.

18. The system of watch at *ukhads* by *totis* and *talaris*, which was a tentative measure, was made permanent during the year. Some efforts were also made in the Malnad parts of the Shimoga District to introduce the system of night watch by villagers as in the Maidan parts. Village Police.

19. The sanctioned strength of the Police force on the last day of the year was 884 officers and 5,023 men or 5,907 in all, against 5,865 at the end of the preceding year. The actual strength of the force, during the year, was 5,374, composed of 855 officers and 4,519 men. Regular Police:—
sanctioned and
actual strength
of the Force.

- Additions and reductions. 20. An addition of 6 officers and 40 men was made during the year to the Kolar Gold Fields Police. A Prosecuting Inspector (3rd grade) was sanctioned for the Sagar Sub-division, while a similar office in the Chikballapur Sub-division was abolished. The establishment of 1 Duffadar and 3 constables temporarily sanctioned for the Tadsa outpost was also abolished.
- Proportion of Police to area and population. 21. There was 1 policeman for every 5·47 square miles and 983·60 inhabitants.
- Cost of the Police. 22. During the year the maintenance of the Police Force cost the State Rs. 9,65,990-2-5, the average cost of a policeman being Rs. 163-8-6.
- Discipline and conduct of the Force. 23. During the year 1,083 officers and men, or 20·7 per cent of the actual strength, were punished departmentally. 36 officers and men or 59 per cent were judicially punished. The offences were mostly under the Police Rules.
- Police lent to private parties. 24. During the year 124 policemen, officers and constables were lent to private individuals for guarding person and property on payment of the usual contribution towards pension and clothing charges of the men.
- Education. 25. Out of the total actual strength of 855 officers and 4,519 men, there were 840 officers and 2,239 men who were literate. This gives a ratio of 98·2 for officers and 49·5 for men against 97·7 and 49·2 in the previous year.
- Reported crime. 26. The total number of cognizable cases reported to the Police during the year was 6,826 against 6,119 in 1899-1900. In mining cases alone there was an increase of 233 cases. Of the cases reported, 5,014 were ascertained to be true against 4,026 in the previous year.
- Disposal of cases. 27. Including 931 cases pending at the close of the year preceding, there were altogether for disposal during the year a total of 7,757 cases. CHAPTER IV.—PRODUCTION AND DISTRIBUTION.

Season and Rainfall.

Season prospects.

172. The season during the year was on the whole favourable for agricultural operations. Towards the close of the year the rains in April and May were scanty and plentiful. The south-west monsoon began to show signs of failure in July and gave rise to serious apprehensions of drought, but these were subsequently allayed by copious rains in September. The average rainfall throughout the State as returned by the Deputy Commissioners of Districts was 39·66 inches, which is 3 inches less than that of the preceding year and 2·78 inches more than the average for the period between 1870 and 1901. Owing to early sowings, the harvests were fair, but there was a general rise in the prices of food-grains, especially ragi and jowar. The markets were well supplied and there was a sufficient supply of drinking water and fodder for cattle.

Control.

173. Rainfall registration continued to be systematically carried on under the direction of Mr. J. Cook, M.A., F.R.S.E., Director of Meteorology in Mysore.

Rain-gauge stations.

174. According to his report for the calendar year 1900, which is the latest, the number of rain-gauge stations throughout the State was 193 against 186 in the previous year.

Rainfall.

175. The average annual rainfall according to district returns for the whole State during 1900 and 1901, as compared with that for the period from 1870 to 1901, was as follows:—

Year.	Average rainfall for the year.	Average for the period between 1870 and the year.	Difference.
1900	42·66	39·86	+ 5·80
1901	39·66	36·88	+ 2·78

176. The mean seasonal rainfall was as shown below:—

200. For the relief of encumbered Inamdars no new loans were sanctioned during the year. Out of the balance of Rs. 3,09,432 which remained unadjusted at the close of the preceding year, a sum of Rs. 6,041 was recovered, leaving an unadjusted balance of Rs. 3,03,391 due to Government.

Agricultural Banks.

201. The number of Banks working during the year was 61 as in 1899-1900. Number of Banks

202. Six new applications were received for the grant of loans by Government ; but they were kept in abeyance, as certain modifications proposed in the rules in force for the working of these Banks were under the consideration of Government.

203. The number of members in the 61 Banks was 2,837 at the end of the year under report, against 2,811 at the end of 1899-1900, there having been 87 admissions and 61 removals during the year. Number of members.

204. Out of a loan of Rs. 14,86,500 sanctioned by Government for the 61 Banks, Rs. 14,45,000 had been drawn and utilised by them. Seven of the Banks had not drawn portions of the loans granted to them ; and three of them, namely, Tyamagondlu, Mandya, and Mallapura, resolved upon dispensing with the sums not utilised, aggregating Rs. 33,496. The loan sanctioned to another Bank, namely Satnur, was reduced from Rs. 16,000 to Rs. 15,000. The total amount of the loans granted by Government was thus reduced to Rs. 14,52,004. By an arrangement entered into for the repayment of the loans, 52 of the Banks had to pay instalments to Government aggregating Rs. 1,05,862, up to the end of June 1901, of which Rs. 51,188 were received before the close of that year, and Rs. 24,870 subsequently, making a Capital (Government advance)

total of Rs. 76,058. The balance, as well as the major portion of the instalment due for 1901-02, is expected to be paid during the current year. All but 10 Banks had dealings with the Treasury in respect of the capital or loan account, the sums paid to and withdrawn from the Treasury during the year being respectively Rs. 90,185 and Rs. 62,163.

Capital(deposits). 205. The deposits received during the year amounted to Rs. 12,656 against Rs. 12,343 in the year previous. Including those remaining at the end of 1899-1900, they amounted to Rs. 28,100, of which Rs. 12,623 were withdrawn, leaving a balance at the end of the year of Rs. 15,477. The number of Banks that had balances of deposits after deducting repayments was 37 against 34 in 1899-1900.

Loans and Repayments. 206. The loans obtained and repayments made by members of the Banks were as shown below :—

Total ...	16,56,344	2,24,869	1,16,464	2,89,020	1,95,307	1,40,198

207. The condition of the Banks at Saklespur and Chikmagalur continued to be the same as that explained in para 285 of the report for 1899-1900, and is now engaging the attention of the Government. In the other Banks, although the amount of loans recovered was nearly the same as that in 1899-1900, yet the amount of loans granted became less, as several of those Banks began to repay the Government loan by instalments. In 13 of the Banks no new loans were granted during the year as against 9 in 1899-1900.

Income and Expenditure. 208. The income and expenditure of the 61 Banks working were as follows :—

	From start- ing of banks up to end of 1898-99.	During 1899-1900.	During 1900-01.	Total.

Total ...	1,11,041	53,388	59,542	2,23,971

Surplus. 209. There were arrears of interest uncollected to the extent of about Rs. 38,000 at the end of 1900-01, against Rs. 32,284 at the end of 1899-1900. There were likewise arrears of interest payable to Government to the extent of Rs. 17,600.

210. The net result of the working of the Banks, taken as a whole, showed surplus of about Rs. 59,000 (as against Rs. 39,900 at the end of 1899-1900), of which Rs. 38,100 had been carried to the Reserve Fund.

Conclusion. 211. The difficulty experienced in several Banks in recovering the arrears due to them points to the need which exists for the provision of a simpler method of enforcing their claims than that of proceeding by suit in the ordinary courts of law. Proposals on the subject will be invited and considered. Arrangements have been made for the inspection of Banks by local officers.

187. The variations in quinquennial averages are similarly repeated below, the rices for 1871-75 being taken as equal to 100 :—

Agricultural
Chemistry.

192. The Department of Agriculture was strengthened during the year by the transfer thereto of two Assistant Chemists from the Geological Department and the appointment of a Probationary Assistant Chemist. The changes in the Chemical Laboratory have been practically completed, and the additions to it, erected by the Public Works Department at an outlay of over Rs. 26,000, have been roofed in. Since February 1901 analytical work has been carried on in the Laboratory.

193. Twenty-four miscellaneous samples were analysed for the Geological Department. The analysis of 36 samples of soils were well under way. Of these, half were taken from the proposed agricultural farm at Hebbal and the other half from the experimental plots of various coffee estates. Thirty-nine samples of sugarcane and 30 samples of jaggory were analysed to ascertain the quality of these products, and an approximate idea formed of the loss of refinable sugar caused by inversion and fermentation in the present system of jaggory-boiling. This loss varied from 10 to 22 per cent of the weight of the jaggory and averaged about 15 per cent. It does not include loss in extraction.

194. In order to assist the planters in starting systematic experiments with coffee three tours were made by the Agricultural Chemist to the coffee districts; three tours were made in the interests of the sugar industry, and eleven very short tours for various other purposes. The giving of information and advice on agricultural matters solicited by planters and others occupied much of his time.

195. Very few applications are reported to have been received during the year for advice in dealing with insect pests and fungoid diseases. But persons who applied either Paris green or Bordeaux mixture are stated to have attained satisfactory results.

Irrigation Works. 196. For the construction of 3,074 irrigation wells advances to the extent of Rs. 6,49,676-8-0 were sanctioned since 1891-92. These figures include Rs. 19,918 advanced during the year for 68 wells. 1,442 were actually completed and the rest were in different stages of construction.

197. The following statements show in detail the necessary particulars in connection with these wells :—

Horticulture and Public Gardens.

212. The number of visitors during the year was over 200,000, showing an improvement over the previous year's attendance. Lal-Bagh, Bangalore.
213. Their Excellencies Lord and Lady Curzon visited the Lal-Bagh on the 14th December 1900, when a select Garden Party was given by Her Highness the Maharani-Regent, C. I. Distinguished Visitors.
214. The rainfall in the garden was plentiful and fairly distributed and the season was favorable for horticultural operations. Season.
215. The Summer Show was held on the 2nd August 1900, the exhibits being to the whole good. The Winter Show was cancelled owing to the lamentable death of Her Most Gracious Majesty the Queen-Empress. Horticultural Shows.
216. A young lion was purchased from Deval's Circus for Rs. 800, and at the same time a tigress cub was sold to the circus for Rs. 200. The animals and birds in the collection were in excellent condition during the year. Menagerie and Aviary.
217. A rose pest, recently forwarded to the Indian Museum at Calcutta for identification, proved new to science and has been named *Adoratus Bangalorensis* by the Entomological expert. Horticultural Pests.
218. With a view to gain wider experience, the Superintendent of Gardens made a tour in Northern India in the months of January and February 1901. By making the personal acquaintance of fellow-workers in the North of India, mutual interest and cordiality have been strengthened and much experience has been gained. Tour in Northern India.
219. The receipts amounted to Rs. 2,432, being the sale proceeds of plants and seeds issued, etc.; the expenditure was Rs. 24,210, which was less than the budget allotment of the year. Receipts and Expenditure.
220. The grounds attached to the Palace Gardens at Bangalore, Gordon Park at Mysore, the Cubbon Park at Bangalore, Daria Dowlat Bagh at Seringapatam, and the Botanic Gardens at Nandidrug were properly maintained during the year. Other Gardens and Parks.
221. The receipts of the various gardens and parks amounted to Rs. 3,808 and the expenditure to Rs. 34,401 during the year as against Rs. 4,044 and Rs. 33,341 respectively in the previous year. Financial results.

Forests.

222. The Conservator of Forests was appointed *Ex-officio* Secretary to Government in the Forest Department with effect from the 1st November 1900, and towards the close of the year the Assistant Conservator at Head-quarters was likewise appointed *Ex-officio* Assistant Secretary. With the sanction of the Governments of India and Madras, Mr. M. Muttannah, B. B., Extra Deputy Conservator of Forests in British service, was appointed temporarily to the State service and posted to the present charge of the Mysore District in April 1901. General.
223. A regulation (No. XI of 1900) to amend the law relating to forests and forest produce in Mysore was passed on the 16th November 1900 and came into force on 1st January 1901. Rules under certain sections of this Regulation were passed during the year. Regulations, Rules, etc.
224. Mr. B. Ramaswamy Iyer, Assistant Conservator, was deputed for about six months with a Madras Forest Settlement Officer to trace the boundary between Mysore and the South Canara District. Demarcation of boundary between Mysore and South Canara.
225. Five students, of whom three are graduates of the Madras University, were deputed to the Imperial Forest School in April 1901, as State stipendiary students. C. Vasudeva Rao, who belonged to the batch of 1899, passed out creditably the final examination, and was appointed a Ranger of the 5th class. Imperial Forest School, Dehra Dun.
226. The total area of State Forests, which amounted to 1,757 square miles at the beginning of the year, was increased to 1,948 square miles at the close of the year. State Forests.
227. The approximate total area of reserved lands was reduced during the year from 308 to 295 square miles. The area excluded amounted to about 130½ square miles, of which nearly 130 square miles is on account of newly created State forests. The total addition to the area of reserved lands was 118 square miles, including the Italkaldrug forest in the Kolar District. Area of reserved lands.

- Forest settle-
ments and
selections for
further reserv-
ation.
228. The rules or practice regulating forest settlement were changed during the year by the introduction, with effect from the 1st January 1901, of the Mysore Forest Regulation. Since the close of the year, the provisions of the regulation have been supplemented by the issue of rules for the guidance of Forest Settlement Officers based on the procedure adopted in Madras.
- Demarcation.
229. The expenditure under this head amounted in all to Rs. 8,270-1-4 compared with Rs. 9,275-4-6 in the preceding year.
- Surveys.
230. The total charges adjusted during the year under this head amounted to Rs. 2,016-10-0 as against Rs. 2,523-5-6 in the previous year.
- Working plans
and their con-
trol.
231. The working plan for the Kukwada-Ubrani forest in the Shimoga District was completed and put in practice. The preparation of working plans of other important forests is receiving attention.
- Breaches of
Forest Rules.
232. The total number of new cases of the year taken into court or compounded was 309 involving 780 persons, against 328 cases involving 820 persons in the previous year. Of the total number of cases reported during the year, 254 were prosecuted in criminal courts.
- Cases of injury
to sandal trees.
233. The subjoined table shows the number of cases of injury to sandal trees enquired into and disposed of by the Revenue Department :—
- | |
|---|
| Number of cases— |
| Pending from previous year—80 |
| Reported during the year—87 |
| Disposed of during the year—47 |
| Pending at the close of the year—120 |
| Amount of Fines recovered—Rs. 1,083-14-0. |
- Protection from
fire.
234. The total area “attempted” amounted to 1,518 square miles against 1,466 square miles in the preceding year, while the area successfully protected was 1,493 square miles. The proportion of failures fell from 7.69 per cent to 1.64 per cent and the cost per acre successfully protected was also reduced from 3.90 pies to 2.98 pies. On the other hand the average cost-rate per acre “attempted” rose from 2.85 to 2.93 pies per acre.
- Regulation of
grazing and
protection from
cattle.
235. The revenue realized from grazing and fodder grass was Rs. 30,564 against Rs. 27,541 in the previous year. The subjoined table shows the number of cattle impounded and fines recovered :—
- | |
|---|
| Number impounded— |
| Horned cattle—5,975 |
| Sheep, goats, etc.—10,080 |
| Amount of Fines recovered—Rs. 2,454-12-0. |
- Natural repro-
duction.
236. The year was unfavorable on the whole to natural tree-reproduction. Most of the principal species seeded poorly. Protracted droughts followed by interrupted and small falls of rain hindered the spontaneous germination of tree seeds, and thousands of seedlings and trees died.
- Artificial repro-
duction.
237. The following statement shows the area stocked and the total cost incurred during the year :—
- | | | Area stocked.

- Date propagation
in forests and
plantations.
238. The operations carried on in the majority of districts have not proved a success.
- Exploitation of
major forest
produce.
239. Increased efforts were made to dispose of forest produce to purchasers in the forests instead of at outside depots. The development of this policy will no doubt benefit purchasers as well as the forest revenue.
- Exploitation of
minor forest
produce.
240. Departmental collection, which had hitherto been confined to State Forests was introduced into District Forests also with results satisfactory on the whole. Better rates were secured for gall-nuts during the year, the quantity collected being 26,615 maunds against 40,461 maunds in the previous year. The collection of 4,582 maunds of gum in Mysore was unprecedentedly good and was due to the long drought during the previous year. The demand for tanning barks continued to be dull during the year under report. In order to improve the growth of the *tangadi* shrub and to increase the outturn of good bark, the taluks in each district

concerned were divided into groups, so that the shrub might be worked on a system of rotation. The scheme, however, owing partly to the existence of unexpired leases, could not be brought fully into force in all the districts.

241. As compared with that of the previous year the lac crop collected in Mysore, Hassan and Bangalore was poor. In all 556 maunds were collected as against 795 maunds in 1899-1900. In Tumkur special attention was paid to the propagation of lac in the Manchadore forest, and 78 maunds were collected. Lac culture.

242. The subjoined abstract shows the quantity of timber cut and collected during the year:— Timber.

Quantity (in cubic feet) cut in forests—176,775½
Quantity (in cubic feet) brought to depots—105,094½
Cost incurred and adjusted—Rs. 26,632.

243. During the year, 188,035 cubic feet of timber were sold, the amount realized being Rs. 1,55,769.

244. The total revenue under this head amounted to Rs. 58,290, a sum which is less by Rs. 5,073 than the revenue of the previous year. Firewood and charcoal.

245. The total revenue under this head amounted to Rs. 54,399, which is more by Rs. 14,169 than the receipts of the previous year. Bamboos.

246. 2,439 tons and 18 cwts. of rough or unworked sandalwood were collected during the year, the balance on hand at the end of the previous year being 2,516 tons and 7 cwts, while 3,416½ tons were worked during the year, leaving a balance of 1,539¾ tons at the close of the year. Sandalwood.

247. The total quantity of different classes of sandalwood sold during the year amounted to 2,602½ tons and the amount realised was Rs. 7,63,986. Sales.

248. The amount realised under sales under this head was Rs. 1,50,255 which exceeded the previous year's revenue by Rs. 50,082. Minor forest produce.

249. The year's transactions aggregated Rs. 12,37,731 under Forests and the total revenue recoverable inclusive of arrears was Rs. 12,90,727. Of this, Rs. 12,48,083 were realised during the year, leaving a balance of Rs. 42,644 outstanding at the close of the year. Financial results.

250. The Khedda revenue for the year amounted to Rs. 7,164, excluding arrears of Rs. 6,923. The collections inclusive of the book credits afforded by the Comptroller were Rs. 12,884, leaving an outstanding balance of Rs. 1,202 at the close of the year. Kheddas.

Mining and Geological.

251. The Mining Industry in Mysore continued to prosper during the year. The Kolar Gold Field still continues to be the producing centre. But active operations were carried on in the Kadur District, while in the Mysore District work commenced in the early part of this year and is proceeding briskly on the South Amble Block in the Nanjangud Taluk, which has been taken up by the New Kempinkote Gold Field Co., Ltd. A. Mining.

252. The number of Mines at work during the year was 14, the same as last year, of which 5 paid dividends to shareholders, as against 4, which paid dividends last year. Number of Mines at work.

253. The following statement shows the quantity of Gold produced and the Royalty paid to Government.

254. Besides gold, the only mineral attracting much attention just now in Mysore is corundum. The right to collect this mineral used to be sold by public auction in the various taluks, but the revenue realized therefrom was almost insignificant compared with the quantity of the stuff obtained and its value. In the beginning of last year (1900) a license was granted over the Districts of Tumkur and part of the Kolar and Bangalore Districts, and pending some information as to the results of work in this area and a revision of the rules generally, the system of selling the right by public auction has been discontinued. Revised rules have just now been issued which are calculated both to encourage the *lena rde* worker and to secure the opening up of some important deposits.

255. With regard to the license over Tumkur and Kolar Districts referred to above, it may be of interest to note that up to the end of June 1901 the licensee has collected over 2,000 cwts of corundum in the five taluks of Goribidnūr, Maddagiri, Doddballapur, Sira and Pavagada.

256. The question of the revision of the Rules for new mining leases and licenses is still pending with the Government of India. Owing to the long delay in the settlement of this question no fresh mining work in the State has been undertaken during the past 3½ years although a great many applications for prospecting and mining rights have been received. This sort of delay is very fatal to mining work and several applications have already been withdrawn and much money which would have been spent in the State has doubtless gone elsewhere.

Rules for Mining
Leases.

257. The work is now being carried on systematically. The Deputy Inspector of Mines is stationed on the field for the greater portion of the year and the Chief Inspector of Mines pays frequent visits to the field.

B. *Inspection
of Mines.*

258. There has been a slight increase in the number of accidents this year.

259. The total number of prosecutions for breaches of the Mining Regulations and the Rules thereunder was 29 against 6 in the previous year.

260. The earlier portion of the year was devoted to examining and reporting on specimens collected during the last field season and colouring the topo sheets in accordance with the rough maps used in the field.

C. *Geological
Survey.*

261. The field work of the camping season (November 1900–June 1901) was undertaken by two field parties. The first under the State Geologist, assisted by Mr. B. Jayaram, continued the survey of the Kolar belt of schist on which they were engaged last year; and subsequently made a rapid traverse from Kolar to Maddur and Kunigal and thence through Nelligere to Mysore. The second under the Second State Geologist, assisted by Mr. B. Shamanna, was engaged in mapping the boundaries of the Southern Extension of the Chiknayakanhalli schist belt and the country south of Mysore, and subsequently joined the State Geologist's party. The parties were also engaged on verifying the existence of the reputed schist belt running south-east from Nittur. They proved that this belt has no existence as such, though occasional small patches were found.

262. The first volume of the records of the Department and the first volume of Memoirs are in the Press and will be issued shortly.

263. This institution has since the commencement of this year been placed in charge of the Agricultural Chemist to the Government of Mysore, and the two assistants of this Department who were working therein have also been transferred.

D. *General.*
(1) *Laboratory.*

264. The collection of specimens in the Department has been largely added to both by members of the survey parties and also by private donors. A complete re-arrangement was necessary in consequence of the lack of adequate space, and a large number of the poorer specimens was discarded, only chips being kept for reference. The collection numbers over 5,000 specimens which have all been registered and nearly all described.

(2) *Collection of
specimens.*

265. Some valuable works were added during the year.

266. The lectures on Geology at the Central College, Bangalore, are given by officers of this Department and consist of two courses—each of about 140 lectures—to the Senior and Junior B. A. students.

(3) *Library.*
(4) *Teaching
work.*

267. The Officiating 3rd State Geologist conducted a geological excursion in which some of the students visited certain localities of particular interest and were instructed in mapping and survey work.

EXPLOSIVES DEPARTMENT.

268. The Mysore Explosives Regulation II of 1888 was brought into force in Mysore in July 1898 and at the same time Rules under the Regulations were drawn up and brought into force. These rules treat of the classification of explosives, the conditions under which the explosives could be manufactured, possessed and sold, and storage and transport of explosives. Provision is also made for the inspection of explosives and explosives magazines by Government officers.

Explosives Legis-
lation.

269. Since the introduction of the Regulation and the Rules, all work connected with them was being done in the Geological Department, and in October last Mr. W. F. Smeeth, Chief Inspector of Mines, was appointed Chief Inspector of

Explosives. Standard plans for the construction of new magazines have been prescribed and several old magazines have been inspected and suggestions made to the owners about the alterations required to make the magazines conform to the standard plans. During the year 9 licenses have been granted by Government for the possession of specified explosives under Rule 18 of the Rules. Rules will shortly be issued for the guidance of District Magistrates and other local officers authorized to inspect magazines and it is in contemplation to issue a set of simple rules for the guidance of small licensed dealers.

Manufacture.

Manufactures.

270. The more important of the articles manufactured in the State were cotton, woollen and silk fabrics, oils, sugar, jaggery and wooden and metallurgical substances.

271. The Mysore Spinning and Manufacturing Company, Bangalore, and the Bangalore Woollen, Cotton and Silk Mills Company, turned out textile fabric on a fairly large scale with the aid of machinery worked by steam power.

Duty on cotton goods.

272. Under Regulation No. II of 1896, which came into force on the 1st December 1896, an *ad valorem* duty of three and half per centum was levied on cotton goods produced at the above two mills. The statement appended below gives the quantity of goods produced and the gross amount of duty levied and the quantity of yarn spun by the mills during the year with corresponding figures for the previous year:—

Period.	Quantity produced. (In respect of grey goods the quantity is stated in lbs. and yards: in respect of other goods in lbs.)		Quantity assessed to (Quantity shown in lbs. only)	Amount received on each description.	Weight of yarn produced.
1899-1900	lbs. 426,219 $\frac{1}{4}$	1,092,098 $\frac{1}{2}$ yards. 32,973 $\frac{1}{2}$ dozens.	lbs. 433,163 $\frac{1}{4}$	Rs. a. p. 6,720 1 4	lbs. 2,735,985
1900-1901	463,918 $\frac{1}{6}$	1,039,913 $\frac{1}{6}$ yards. 43,082 $\frac{1}{2}$ dozens.	457,074 $\frac{1}{6}$	6,792 7 2	2,235,972

273. Besides the above two mills, there were at work in Bangalore Messrs. Binny & Co.'s Oil Mills and Coffee Works, Messrs. Rickie & Co.'s Iron Foundry, Ripon Works, Messrs. Arbuthnot & Co.'s City Brick and Tile Works, and a few oil mills owned by Indians. Messrs. Arbuthnot & Co.'s Sugar Factory at Goribidnur was also at work.

274. The following table shows roughly the value of the several manufactures:

District.	Value in Rupees.	
	1899-1900.	1900-1901.

Country oil-mills

275. The number of oil-mills paying *mohatarfa* at the close of the year 1900-1901 was 2,667, while that at the close of 1899-1900 was 2,623.

Trade.

Exports and imports.

276. The principal articles of export were coffee, cardamoms, arecanut, sandalwood, silk, gold and food-grains; and the imports consisted chiefly of piece-goods, wheat, iron, cotton, thread and other articles manufactured in Europe.

277. The value of the imports and exports is given below as compared with the figures for 1899-1900 :—

Grand Total	1,90,03,742	1,91,80,579	+ 1,76,837

The fluctuations under the more important heads will be noticed below.

- Land Revenue. 326. The large increase of Rs. 3,21,890 under this head was due to better collection, on account of more prosperous agricultural conditions, of both the arrear and the current year's demand.
- Gold Mining. 327. There was a larger production of gold in the mines than in the previous year, the output being 505,603 ozs. against 475,668 ozs. There was an increase of Rs. 84,000 in the five per cent royalty due to Government, but as part of the royalty due for the previous year was credited after its close, the excess under this head came up to Rs. 2,54,112.
- Forests including Kheddas. 328. There was a large fall of Rs. 1,76,766 under Sandalwood, a part of the stock having been held back from sale for want of proper offers. Receipts under Kheddas also decreased by Rs. 4,833. There were enhanced receipts from Timber and Minor Forest Produce of Rs. 71,474, with the result of reducing the deficiency to Rs. 1,00,125.
- Excise 329. The increase of Rs. 1,14,927 in the Excise Revenue was largely contributed by Toddy, chiefly as rental.
- Surplus Investment Account. 330. Government of India Securities of the value of seventeen lakhs and quarter were sold during the year and the loss of interest on that account caused reduction by Rs. 5,64,449.
331. The interest due on deposit of the current cash balances in the Madras Bank was credited only for one-half year instead of for two-halves as usual. This caused a decrease of Rs. 6,180.
- Interest on loans and arrears of revenue. 332. The Jodhpur loan of 25½ lakhs having been transferred to the Railway Redemption Trust Fund, the loss of interest thereon accounts mainly for the decrease of Rs. 56,590 under this head.
- Railways. 333. Under State Railways there was a large increase of Rs. 3,55,799, but owing to the longer periods to which the receipts credited during the year refer, the increase is to a large extent only apparent, as each year's income is not always credited in the exchange accounts with the companies concerned within the particular year to which it refers. A sum of Rs. 26,100 was for the first time credited in the accounts of 1900-1901 for the Birur-Shimoga line.
- Minor items. 334. An increase of Rs. 60,000 appears as a Miscellaneous item under General Administration, being the value of a Government building known as Melville House sold to the estate of Princess Krishnammanni Avaru.

335. The details of expenditure are given in the subjoined statement:—

336. Under this head, the large sum of Rs. 65,921 was paid in excess over the previous year on account of arrears of remuneration due to shanbhogs and patels, and of land inams. There was an increase of Rs. 6,639 under Travelling Allowances of District and Taluk officials, of Rs. 3,514 under Increase of Establishment and other charges of the Survey and Settlement Department, and, together with some minor items, the total increase came to Rs. 96,099.

Land Revenue
charges.

337. The increase of Rs. 48,075 under Excise was composed of Rs. 11,000 due to the pay, etc., of certain Assistant Commissioners, newly transferred to the Department, having been charged for the whole year instead of only a part as in the previous year; Rs. 12,000 to the payment of arrears to and entertainment of the full complement of the temporary establishment; Rs. 11,500 under Travelling Allowances and of other minor items amounting to Rs. 13,575.

Abkari (Excise).

338. The grant of periodical increments of salaries, and the opening of new schools account for an enhanced expenditure of Rs. 32,908.

Education.

339. The opening of the Victoria Hospital caused an increase of Rs. 32,440, the increase of pay of Medical officers of Rs. 17,000, contribution to leave and retiring allowances of British officers lent, of Rs. 6,602, and these increases, together with some minor ones, came up to Rs. 60,338.

Medical.

340. There was an increase of Rs. 39,361 under Census, of Rs. 11,453 under Geological Department, due to the appointment of one of the officers as a Deputy Inspector and on account of contingencies, library and other miscellaneous charges, of Rs. 11,080 under Agricultural experiments, and of Rs. 5,368 on minor accounts. Reduced by decreases amounting to Rs. 9,388, the net increase of charges under the head came up to Rs. 37,864.

Scientific and
Minor Depts.

341. The large sum of Rs. 24,80,904 paid during the previous year for the formation of the Railway Redemption Trust Fund disappears from the account of 1900-1901. Rs. 3,63,051 and 1,52,624 are similar non-recurring items, relating respectively to works on Birur-Shimoga and Kolar Gold Fields Lines, and similar items of small amounts appear for other works. All these give an apparent saving of expenditure during the year, as compared with the previous year, of Rs. 30,11,802. From this have to be deducted, being items of extra expenditure, Rs. 2,30,028 guaranteed interest having been adjusted for 15 months in 1900-1901 in place of 11 months in the previous year, Rs. 35,050 on account of Coast Railway Survey, Rs. 17,363 expenditure on State carriages and a small sum of Rs. 2,710 under the head "Direction and Accounts." The resulting saving comes up to Rs. 27,26,651.

Railways.

342. The following statement shows the Gross Receipts and Gross Expenditure during the year as compared with the previous year:—

Revenue surplus.

	Gross Receipts.	Gross Expenditure.	Deficit.
	Rs.	Rs.	Rs.
1899-1900	190,03,742	221,16,615	31,12,875
1900-1901	191,80,579	212,24,176	20,43,597

Excise.

343. During the year, the rules framed under the Excise and Opium Regulations were revised to the extent of assimilating them with those of the Civil and Military Station of Bangalore.

Excise Rules.

344. The gross receipts under all heads aggregated Rs. 37,36,887-8-10 as against Rs. 36,29,233-11-7 in the previous year, showing a net increase of Rs. 1,07,653-13-3. Out of the above sum 48·5 per cent were from arrack and 48·7 per cent from toddy.

Financial results.

345. The incidence of total Excise revenue per head of the population was 11 annas as against 10 annas 7 pies in the previous year.

Incidence of total
Excise revenue.

346. The total expenditure under all heads aggregated Rs. 3,18,001-3-10 against Rs. 2,70,981-11-0 in the previous year. The increase was mainly due to the pay of the four Assistant Commissioners in charge of Excise Divisions having been debited to the Excise budget.

Expenditure.

347. The surplus for the year under report amounted to Rs. 34,18,826-5-0 as compared with Rs. 33,58,252-0-7 of the previous year.

Surplus.

348. The classified sources from which Excise revenue is derived, were (1) arrack or country spirits, (2) toddy or country fermented liquors tapped from various kinds of palm trees such as date, cocoanut, palmyra and bagani, (3) country beer, (4) foreign liquors, (5) ganja and majun, (6) opium, (7) miscellaneous items.

Sources of
revenue.

Deaths among
the insured.

368. There were 56 deaths reported, involving payment of bonus to the amount of Rs. 34,408-8-0. The amount of bonus earned from the commencement up to the end of 1900-01 was Rs. 1,21,540-4-0, of which Rs. 84,333-12-0 was paid up, leaving a balance of Rs. 40,206-9-0 to be paid.

Effective policies
and amount of
liability.

369. There were altogether 4,749 policies on the 30th June 1901, with an assured bonus of Rs. 32,08,871-12-0. Of these, 81 held by 51 persons were mature policies, and payment of bonus thereon was pending; and on 46 policies held by 1 persons, payment of premium was discontinued and brought under Rules 10 and the Mysore State Life Insurance Rules. The remaining 4622 policies held by 4622 persons, involving a liability of Rs. 81,31,047-4-0 and paying a monthly premium of Rs. 11,349-4-0 were fully effective.

Cash balance.

370. The cash balance at the credit of the Fund was Rs. 6,72,329-18-1 against Rs. 5,43,677-13-5 in 1899-1900. The percentage of the year's expenditure to that of the cost of management to the closing balance were 2.57 and .58 respectively as against 3.86 and .40 in the year previous.

CHAPTER VI.—VITAL STATISTICS AND MEDICAL SERVICES.

(Calendar year 1900)

Births and Deaths.

371. The population of the Mysore State (excluding the Civil and Military Station) according to the Census of 1891 was 4,843,523, or 2,433,262 males and 24,10,261 females.

372. The total number of births during the year was 86,284 which is equivalent to a birth-rate of 17·81 per mille, against 86,662 and 17·89 per mille of the previous year, the number of males born to every 100 of females born being 102·89.

373. The total number of deaths was 92,358, the death-rate per mille of population being 19·07 against 17·33 in 1899.

374. The excess of deaths over births per mille of population was 1·26.

CHAPTER VIII.—ARCHÆOLOGY.

464. During the year three more books of the Mysore Archæological series relating to the Hassan and Kadur Districts and the eastern part of the Shimoga District were completed, thereby disposing of 2,218 inscriptions. These books form volumes V, VI, and VII of the *Epigraphia Carnatica*. The Hassan and Kadur volumes are mainly concerned with Hoysalas, as these districts formed the heart of their kingdom; the Kadur volume also contains important matter pertaining to the Kadamba and Ganga dynasties. The Shimoga volume contains records of the highest value from both historical and linguistic points of view. They go back, as far as the and century, to the king Satakarni. Next to the Edicts of Asoka, which belong to the 3rd century, this is the oldest inscription found in Mysore and serves to bridge the gap between the times of Chandragupta and Asoka on the one hand and the rise of the Kadambas on the other.

465. Under the orders of Government, the Director of Archæological Researches in Mysore proceeded on a tour to the Hassan, Shimoga and Chitaldrug Districts, to report on certain special subjects. Among the places visited were Halebid, Kavaledurga, Nagar, Anantapur and Chitaldrug, and the Director has submitted a report to Government on the operations proposed to be carried out for preserving the ancient temples of Halebid.

CHAPTER IX.—MISCELLANEOUS.

Government Printing.

Receipts and
Expenditure.

467. The receipts under all heads during the year amounted to Rs. 1,24,667 as against Rs. 96,929 in the previous year, and the expenditure amounted to Rs. 75,682 against Rs. 72,099 during the past year, thus leaving Rs. 48,985 in favor of Government as against Rs. 24,530 in the previous year.

Branch Press,
Mysore.

468. The value of work done by the Branch Press at Mysore amounted to Rs. 8,909 as against Rs. 8,714 during the previous year, and the expenditure amounted to Rs. 4,140 as against Rs. 4,183 in the year previous.

"Mysore Gazette"

469. The receipts under sale of copies of *Mysore Gazette* amounted to Rs. 2,221, of which Rs. 1,241 were derived from advertisement charges as against Rs. 1,094 and Rs. 895 respectively in the previous year. The concession granted by Government to the Members of the Dasara Representative Assembly, shanbhogs and patels, enabling them to obtain copies at half rates, has been largely availed of during the year.

Government Stationery.

470. The year opened with a balance of stock amounting in value to Rs. 38,070-5-10 and a stock of the value of Rs. 1,09,282-8-10 was added to it during the year. The cost of stationery issued during the year was Rs. 98,659-7-4, being an increase of Rs. 7,181-14-1 over the previous year. The value of stock at the close of the year amounted to Rs. 48,693-7-4. The cost of goods received from England aggregated Rs. 30,381-10-9, while the value of Europe articles and country articles purchased locally amounted to Rs. 4,697-15-0 and Rs. 64,750-10-5 respectively. The value of stationery consumed in all Public Offices and Departments during the year was Rs. 41,012-7-1, while a sum of Rs. 57,647-0-3 represents the value of papers issued to the Press for printing purposes, such as the Gazette, reports, forms, proceedings, educational works, etc. Special arrangements were made by the Superintendent of Stationery for the issue of paper required for Census purposes.

Stock-taking.

471. The actual stock in the Stationery Depôt was taken in the month of January 1901, the slight excesses and discrepancies found therein, being adjusted in the accounts.

Government Museum.

Visitors.

472. The total number of visitors to the Museum during the year was 158,991 as against 157,741 in the previous year.

473. Some additions, mostly by Departmental collection, were made to the Natural History Section. The labelling of shells and fishes was also attended to.

Artware sale
proceeds.

474. The sale proceeds of articles of Artware kept in the Museum were Rs. 286-3-1 as against Rs. 336-2-6 in the previous year, and the realization from articles exhibited by manufacturers amounted to Rs. 78-2-7 as against Rs. 119-8-3 in 1899-1900.

Cost.

475. The cost of maintaining the institution was Rs. 3,445-5-6 as against Rs. 3,302-12-0 in the preceding year.

Amrut Mahal.

Season.

476. The season during the year did not much differ from that of the preceding year, the rainfall in most parts of the State being scanty throughout the year except in the months of May and June 1901 when it was favorable both on the Coorg side and in the Mysore jungles. The herds having stayed longer in the jungles than usual and the growth of grass in the kaval having been meagre in the season, the births declined during the year.

477. The year opened with 9,277 head of cattle. This added to 740 births and credits given for wrong entries in deaths—3, brought up the total to 10,020 head, against 11,265 in the previous year. Stock.

478. The casualties during the year numbered 1,683, made up of 1,471 deaths, 201 sales and 11 struck off the accounts. The balance of stock at the close of the year was 8,337, showing a decrease of 940 as compared with the previous year. Casualties.

479. The percentage of births on the average number of breeding cows was 23.04 against 42.02 of the preceding year, the rate being the lowest ever recorded and the unfavorable season accounting for the decrease. Births.

480. Arrangements were made rather late in the year for the sale of cattle in a well-attended weekly market at Santemarahalli, within easy reach from the forests, where a depôt was opened. The total number of cattle sold during the year was 201 showing a decrease of 52 over that of the previous year. Of these 170 steers were sold to the Madras Commissariat Department, 4 bulls to the Government of Port Blair, and the remaining 27 to the public. Sales.

481. At the beginning of the year the stock of sheep and goats was 1,759 which with the births and other receipts of the year, came up to 2,027. Of these, 298 died and 35 were sold, leaving a stock of 1,694 at the end of the year. Sheep Farm.

482. The actual receipts of the Department, during the year, amounted to Rs. 11,883-11-2 exclusive of remissions to the extent of Rs. 910. Receipts.

483. The cost of the Department to Government during the year aggregated Rs. 33,072-10-0, against Rs. 34,623-2-11 in 1899-1900. Expenditure.

Government Stud Farm, Kunigal.

484. The year opened with 9 stallions on the Farm—English 2, Australian 3 and Arab 4. A thorough-bred stallion “Courage” was purchased during the year. Stallions.

485. The fresh purchases and transfers etc. during the year were 23 which together with the number on the Farm on the 1st July 1900, raised the number of brood-mares to 114. Brood-mares.

486. 14 were cast and sold, 9 were transferred to the Transport Establishment, 4 died and 2 were destroyed. There were thus left 85 brood-mares on the Farm on the last day of the year. Casualties.

487. At the commencement of the year there were 176 foals and the births during the year amounted to 26 colts and fillies. Foals.

488. The casualties during the year were 61, leaving 159 colts and fillies in the Farm at the end of the year. Casualties.

489. An expenditure of Rs. 46,058 was incurred during the year on account of this Farm against a budget grant of Rs. 60,244. Cost.

490. The value of live-stock remaining on the Farm at the end of the year was Rs. 1,07,430 against Rs. 1,23,230 in 1899-1900. Value of live stock.

Muzrai.

491. On the retirement of Rai Bahadur Mr. A. Srinivasacharlu in April 1901, the combined offices of Muzrai Superintendent and Secretary to Government, Muzrai Department, were abolished, and the duties appertaining to the latter office were entrusted to the Deputy Secretary to Government in the General and Revenue Departments, the Deputy Commissioners of Districts being given wider control and being expected to give greater personal attention to Muzrai institutions than before. Controlling agency.

492. The number of Government religious and charitable institutions in the State was 1,606 during the year under report. Information regarding their nature and the cash allowances made to them is given in the appendix. Many of these institutions enjoy also an income from grants of land and from donations by private individuals. Number of Muzrai institutions.

493. The total receipts during the year, including the interest from the Prince Gulam Mahomed's Charity Fund and the income from lands and offerings from devotees and other sources, amounted to Rs. 4,89,407-7-0, and the total expenditure to Rs. 4,23,661-15-11, leaving a balance of Rs. 65,745-7-1 at the end of the year. Inclusive of the savings of previous years and the funded capital of the Prince Gulam Mahomed Charity Fund, the total amount at the credit of the several Muzrai Receipts and Expenditure.

institutions at the close of the year was Rs. 7,96,231-10-0, of which Rs. 4,41,600 was invested as follows :—

Local Committees.

495. Fourteen local committees under the designation of Dharmadarsis were newly appointed in the Bangalore, Kolar, Tumkur, Mysore, Kadur and Chitaldrug Districts to supervise the working of certain Muzrai institutions, the total number of such committees at the close of the year being 162.

Revision of Temple establishments.

496. A careful revision of the over-grown and under-paid establishments of Muzrai institutions was effected during the year, the total number of establishments so revised from the commencement being 95.

Matts.

497. The temporary management of the endowments of the following matts continued to be in the hands of the Muzrai Department during the year :—

The Sri Vyasarayaswami Matt	in the Mysore District.
The Sri Uttaradi Matt	} in the Hassan District.
The Sri Yogonanda Matt	
The Sravanabelagola Matt	} in the Bangalore District.
The Sri Sivaganga Matt	
The Sri Hariharpur Matt	} in the Kadur District.
The Sri Bisagnia Matt	
The Singanagadde Matt	

Restoration of cash tasdik or inam lands.

498. The lands attached to the temple of Sri Jattangi Rameswaradevaru in the Ramasagar village of the Molakalmuru Taluk in the Chitaldrug District, measuring 1,747 acres and 17 guntas, and assessed at Rs. 643-8-0, which had been resumed by Government in 1882, were restored and confirmed as jodi inam to the temple in March 1901, subject to the payment of the original quit-rent with the usual cess.

Endowments by private individuals.

499. The deposits made in Government Treasuries by private individuals on behalf of benevolent, charitable and educational institutions at the favorable rate of interest of 5 per cent per annum conceded by Government in Proceedings No. 49500--22 (Muzrai), dated 9th August 1892, amounted at the close of the year to Rs. 3,26,600.

H. H. the Maharaja's Sanskrit College, Mysore.

500. For the maintenance of this seat of learning, a grant-in-aid of Rs. 9,000 per annum is paid from the Education budget, in addition to Rs. 7,222-15-11 from Muzrai Funds. Owing to the prevalence of plague the usual Vidvat Examination or tests of high proficiency in Sanskrit language and Philosophy were not held during the year.

Prince Gulam Mahomed's Charity Fund.

501. The income from this fund during the year amounted to Rs. 6,076 and the expenditure to Rs. 5,478. Inclusive of the savings of past years, the balance at the close of the year was Rs. 6,244. There were 136 recipients of this charity on the 30th June 1901, of whom 40 were Christians, 82 Mahomedans and 14 Brahmirs.

The Gumbuz and other Mahomedan institutions at Seringapatam.

METEOROLOGY

Accession No. 61

CHAP. IX.

Miscellaneous.

Meteorology.

504. The Director of Meteorology in Mysore, Mr. J. Cook, M.A., F.R.S.E., had Control. three months' privilege leave during the year from the 27th June 1900, Mr. N. Venkatesaengar, B.A., Chief Observer, being entrusted with the general charge during his absence.

505. The usual daily telegrams giving the 8 a.m. observations were despatched Observations. with the utmost regularity from all the four stations throughout the year to Simla, Madras and Bombay for incorporation in the Daily Weather Reports issued from those centres, and there were few inaccuracies in the transmission of the telegrams. The observations taken at 10 a.m. and 4 p.m. daily were as usual dispatched to Calcutta on the last day of each month with the utmost punctuality.

506. The weekly and monthly abstracts of observations were as usual published Publication of observations. in the Government Gazette. The annual report for the calendar year 1900 was printed at the Government Press as usual and supplied to all the Chief Officers of the State. Copies were as usual sent to a number of the principal observatories and scientific societies throughout the world and very many of these sent in exchange their own annual reports. A conspicuous and important feature of the Mysore Annual Meteorology Report has always been the graphic presentation of the daily and monthly weather elements for all four stations. This gives the readiest means of not only comparing the simultaneous weather variations all over the State but also of judging the accuracy with which the observations at the several stations are taken.

507. There was no interruption to the working of the continuously recording Working of the (autographic) instruments, *viz.*, barograph, thermograph, anemograph, pluviograph, heliograph, and there were no breakages or accidents to any of the other instruments except to the dry bulb thermometer at the Mysore Observatory. This was broken on the 22nd April 1901 by some mischievous person and was subsequently replaced.

508. During the calendar year 1900 the total number of rain-gauge stations Rain gauge stations inspected was 12, being 68 per cent of the whole number of stations. During the official year 10 rain-gauges and 16 measure-glasses were issued to different stations in the State.

509. The usual Rainfall Report for the calendar year 1900 was prepared and issued. It gives the statistics of rainfall at 193 different stations throughout the State and not only for the year, but, what is very important for ready comparison, the normal rainfall for the past 31 years. A special feature of this report is the exhibition of charts of the yearly rainfall as well as the normal yearly rainfall over the State. Rain Registration Report.

510. During the year the printing of the first of a projected series of Mysore Self-recording Meteorology Memoirs was completed at the Government Press, and the printing especially of the monthly graphs of daily variations of the weather elements was very satisfactory. This Memoir gives the hourly values of the weather elements for the quadrennial period 1895-98 as tabulated from the records of the various self-registering instruments.

511. The following is an abstract statement of the expenditure of the Department during the year:—

Census.

512. A general census of the population of Mysore was ordered to be taken on General. the night of the 1st March 1901, at the same time as in other parts of India. This has been the fourth decennial census thus taken, the first being in 1871.

Direction.

513. The operations were directed by Mr. T. Ananda Row who was appointed Provincial Superintendent of Census in addition to his duties as Director of Statistics.

Census Procedure Code.

514. The instructions for the taking of the census were issued in the form of a code with a view to simplify correspondence, to facilitate the communication of additions and corrections, and finally to place on record for future use the procedure followed on the present occasion. The instructions contained in the code were generally on the lines prescribed for British India with such adaptations as local conditions required.

Cost.

515. A sum of Rs. 1,00,000 was sanctioned as a first instalment to meet the expenditure on account of the census.

Pre-census work and agency.

516. The first step in pre-census work was taken by the Government ordering in December 1899 the preparation of a list of all villages in the State in a special form prescribed. This was to facilitate the formation of census divisions without the omission of any tract on the one hand, and the overlapping of the limits of divisions on the other.

517. The next step was the numbering of all houses and buildings, town by town and village by village. In connection with this, elaborate definitions of "house" and nice distinctions likely to confuse people were avoided, and simple rules were prescribed, the governing principle of which was that every place where people habitually live or are likely to be found on the night of the 1st of March should be numbered, and that the numbers being in a consecutive series for each village (or municipal division) should be placed in the order best calculated on the one hand to avoid the mistake of twice numbering the same premises, and on the other to guide the enumerator who would come late on the scene.

518. The next thing done was the formation of census divisions, blocks circle, and charges. One or more blocks constituting a village (or municipal division), a number of villages constituting a circle, and a number of circles constituting a charge which in most cases was the entire taluk or sub-taluk itself. In making these arrangements, care was taken that the boundaries of administrative divisions were not crossed by those of census divisions. A careful preparation of lists of villages comprised in each circle and lists of houses situated in each block, completed this stage of the work. On house numbering and the preparation of the lists just mentioned the ordinary local municipal and village revenue servants were employed.

519. Census officers were next appointed, a charge superintendent for each charge, a supervisor for each circle comprised in that charge, and enumerators with one or more blocks assigned to each.

520. The permission to assign one or more blocks to the same person as enumerator, combined with the feature that every village was made up of one or more entire blocks, was calculated to facilitate the arrangement of schedule books by villages on the morning after the census and to adapt the scheme to the chances and changes incidental to the staff of census officials.

521. In the matter of instructing supervisors and enumerators, a slight departure was made from previous censuses and from the method adopted elsewhere. The instructions were issued separately from and long before the schedules themselves, whereby abundant time and facility were allowed to enumerators and supervisors to study and master their respective parts. The instructions themselves were also in full detail. It was ordered that as far as possible men on the permanent pay lists of Government in all Departments except Press, Plague and Medical, should be employed on census work without prejudice to their ordinary duties. This was practicable in all the grades except in that of enumerators for which however as usual unpaid volunteer agency had to be employed to a large extent.

522. With census divisions and agency thus constituted and the house numbers checked with reference to the block lists, and errors and omissions corrected by supervisors and enumerators, a preliminary enumeration was started. This consisted in writing up for each numbered house the name and particulars of every person living in it. These particulars were to be ascertained by personal inquiry at each house by the enumerator himself and entered in a schedule, forms of which were supplied to each enumerator made up in books, one for each block, and adapted to the size of the blocks assigned to him. The forms of these schedules were the same as at the census of 1891 except that the columns were slightly transposed so as better to conform to sequence of thought and thereby facilitate interrogation and answer.

It differed from the form prescribed for British India in providing for more particulars relating to conjugal condition and for sect, gotra etc. This preliminary enumeration commenced about the 15th January 1901 in rural areas and the 1st of February in urban areas, and finished with more or less speed everywhere so as to allow of the schedules being well examined and all errors rectified before the final enumeration.

523. In the meantime notices were issued to all residents of villages and towns warning them as far as possible to remain in their homes on the night of the 1st of March, to keep the front door of their houses open, and to help the census enumerator with a light when he would call.

524. To allow of all available officials helping in this final enumeration, all public offices, courts and schools in the State were closed for three days on the 28th February and 1st and 2nd March 1901.

525. All the heavy printing work was executed without a hitch by the Superintendent of Government Printing (Mr. T. T. Leonard) with the ordinary establishment at the Government Central Press at Bangalore.

526. The final enumeration or census proper consisted in the enumerator going round the areas assigned to him, schedule book in hand, rapidly comparing the preliminary record with the facts subsisting on the night of the 1st of March, and correcting it by adding or striking off names and particulars as may be found necessary. Final enumeration.

527. For the purpose of quickly ascertaining the totals of population in view of the special interest which attached to the census of 1901 all over India, special arrangements were made for making up the totals roughly. Enumerators and supervisors met at assigned places on the morning of the 2nd March, the returns were added up by blocks, and the figures thus obtained for the smallest unit of census operations were combined for a series of larger units, circles, charges, taluks and district and city, to make up the first totals. These first totals were telegraphed by Deputy Commissioners to the Director of Statistics at Bangalore, and to the Census Commissioner at Calcutta in time for incorporation with the totals for the Indian Empire published at Calcutta on the 7th of March. According to the provisional total thus reached, the population of the Mysore State, excluding the Civil and Military Station of Bangalore, numbered 5,448,923 persons, males 2,750,902 and females 2,698,021. First or Provisional Totals.

528. The final totals which have been made up after a variety of tests and check show a population of 5,449,800, viz., 2,751,902 males and 2,697,898 females. This final return exceeds the first totals by 877—a small difference of .02 per cent, testifying to the general efficiency of the arrangements made by local officers.

529. The execution of all census work to the end of the final enumeration and the making up of the provisional totals vested in the Deputy Commissioners of Districts who were held responsible for the successful completion of the work. It was on the whole satisfactorily accomplished everywhere, though local officers and people were much harassed by the appearance of the plague in the Bangalore and Mysore Cities and Kolar Gold Fields, and in some rural parts of the Bangalore, Kolar, Mysore, Kadur and Shimoga Districts. The part and responsibility of Deputy Commissioners.

530. The Census Regulation IX of 1900, framed in the terms of the India Census Act with such alterations as local conditions required, was passed on the 2nd November 1900. In pursuance of the provisions contained in this Regulation, Government issued a notification directing that census should be regarded as of paramount importance while it lasts, and that it was the duty of all officials and non-officials entrusted with the census work to see that the rules and instructions, issued by the Director of Statistics and Census Superintendent for the conduct and guidance of census officers in taking the census, are carried out with efficiency and accuracy, as required by the said Regulation. The instructions to enumerators together with the standard questions, which under Section 6 of the Regulation enumerators may put to the people to be enumerated (Chapters 6, 7 and 8 of the Mysore Census Procedure Code), were published as a Supplement to the *Mysore Gazette* for general information. These instructions began with the declaration that the object of the present census had no reference whatever to the superiority or inferiority of one religion or caste in relation to another or of one person or family in relation to another, and so forth. And it was further stated that the object of the census was similar to that of the special census then recently held to collect statistics of agricultural stock, and related only to *ahaval* (economic condition) of the general population. Census Regulation and Rules.

Miscellaneous.

How they operated.

531. These assurances, and the publicity given to the instructions, and the familiarity of the people with previous synchronous enumerations of persons and agricultural stock, combined with their general intelligence, went far to make the census work of 1901 a matter of routine in which all classes co-operated readily and willingly, and to deprive it of the poetry, excitement or humorous incidents which characterised similar censuses at other times or in some other places.

Census of Railways and Civil and Military Station of Bangalore.

532. The Rules and Regulations passed by the State applied of course only to the Bangalore-Nanjangud and the Birur-Shimoga Sections of the railway line; but for the other sections of railway, jurisdiction over which stands ceded to the British Government, the Hon'ble the Resident was pleased to direct that the Mysore schedule and procedure should be adopted with a view to assimilate the census of these sections with that of the districts traversed by them. The census of the Civil and Military Station of Bangalore was taken by the Civil and Military Station authorities in accordance with the Madras Rules and Regulations under the direction of the Census Superintendent for the Madras Presidency.

Census statistics.

533. As soon as the provisional totals were made up and reported, the schedules were properly packed and sent up to Central Office at Bangalore for abstraction and tabulation. At the close of the official year under report the final results were being worked out in prescribed detail and tabulated for publication in due course. The gross figures which may here be anticipated have been as follows as compared with the previous census :—

		Occupied houses.	Total population.	Males.	Females.
1891	...	874,407	4,843,523	2,433,262	2,410,261
1901	...	1,092,248	5,449,800	2,751,902	2,697,898
Increase ..		{ Number ...	217,841	606,207	318,640
		{ Per cent ...	24.91	12.52	13.10
					287,637
					11.93

534. If the figures for the Civil and Military Station be added on, the statistics would stand as follows :—

		Occupied houses.	Total population.	Males.	Females.
1891	...	894,446	4,943,604	2,483,451	2,460,153
1901	...	1,110,687	5,539,399	2,797,024	2,742,375
Increase ...		{ Number ..	216,241	595,795	313,573
		{ Per cent ...	24.18	12.05	12.63
					282,222
					11.47

535. Taking the cities and districts separately, the variations per cent from the census of 1891 have been as shown below :—

Civil & Military Station, Bangalore—	10.47	Tumkur District	...	+ 16.94
Bangalore City	...	Mysore do	...	+ 10.77
Mysore City	...	Chitaldrug do	...	+ 20.49
Kolar Gold Fields	+ 439.22	Hassan do	...	+ 11.12
Bangalore District	+ 15.69	Kadur do	...	+ 9.25
Kolar District	+ 17.36	Shimoga do	...	+ 0.52

536. The decrease where it occurs is due to deaths and desertions during three years of plague. The increase in all cases has occurred under normal conditions of public health and fair seasons, except in the Kolar Gold Fields where there has also been great immigration attendant on the growth of the Gold Mining industry.

537. The present population is an advance of 33.14 per cent over that of 1881, and 10 per cent over that of 1871, the great famine with its attendant mortality which is a land-mark in the History of Mysore, having occurred in 1876-78.

538. Census operations and results will form the subject of more detailed treatment in the special report to be separately issued.
